# ABOUT THESE GUIDELINES

Branding is more than just a logo. It's the perception people have about your business and the emotional attachment they form with your products and services. Launch Family Entertainment, also referred to as "LFE," has established guidelines for all of its units and affiliates related to the marketing of its products and how to properly use the Launch Family Entertainment logo in a variety of marketing communication applications. This manual is a comprehensive branding guide that explains our graphic design standards for all channels.

It is important that all marketing communications reflect Launch's commitment to our organizational values, beliefs and feelings. All communications must be honest, truthful and not misleading and be prepared with a sense of social responsibility. Advertising, communications and marketing activities should portray positive social behavior and social stereotyping must be avoided. All products and guests must be showcased in safe environments and in safe situations where rules are being adhered to. All partners, either businesses or charitable organizations, should be ones who encourage a healthy, active lifestyle and have similar values.

# IMPORTANCE OF CONSISTENT BRAND IDENTITY

A brand is the perception people have when they hear or see our name. Consistency helps us manage these perceptions by communicating professionalism, purpose, and stability.

By maintaining consistent branding, we can create clear impressions: Are we serious? Do we follow through? Are we focused? Consistency eliminates brand confusion and instils confidence. It protects our investment by ensuring our logo and message are applied consistently. It builds on previous successes, much like how everyone knows what to expect from a Coca-Cola.

Our brand targets a specific market segment that values what we offer. These customers notice and care about consistency, which influences their buying decisions. For these reasons, brand consistency is essential.

**All creatives must be submitted for approval through the marketing department. The Submission form is located on the Franchise Portal. Please see the last page of presentation for direct links.**

# PRIMARY LOGO

The primary logo is the main voice and signature of our brand. This should be used most frequently when space allows for it. Our logo consists of customised typography & an icon. This should be used on elements like websites, footers, stationery, signage etc.

## Breakdown:

A sleek and contemporary logo that represents the evolution from a trampoline park to a full-service family entertainment center, appealing to a broad audience.

## Clear Space:

This shows the minimum distance between the logo and other graphic elements. Always allow for a minimum clear space the width of the L as shown to the right.

# SECONDARY LOGO

The secondary logo or known as the 'alternative logo' uses components from our main logo but in a variation. This is to be used when the primary logo doesn't fit in the required space. It can be used on websites, printed materials and larger elements.

## Breakdown:

Maintaining brand recognition by using the Launch only logo.

## Clear Space:

This shows the minimum distance between the logo and other graphic elements. Always allow for a minimum clear space the width of the L as shown to the right.

# ICON

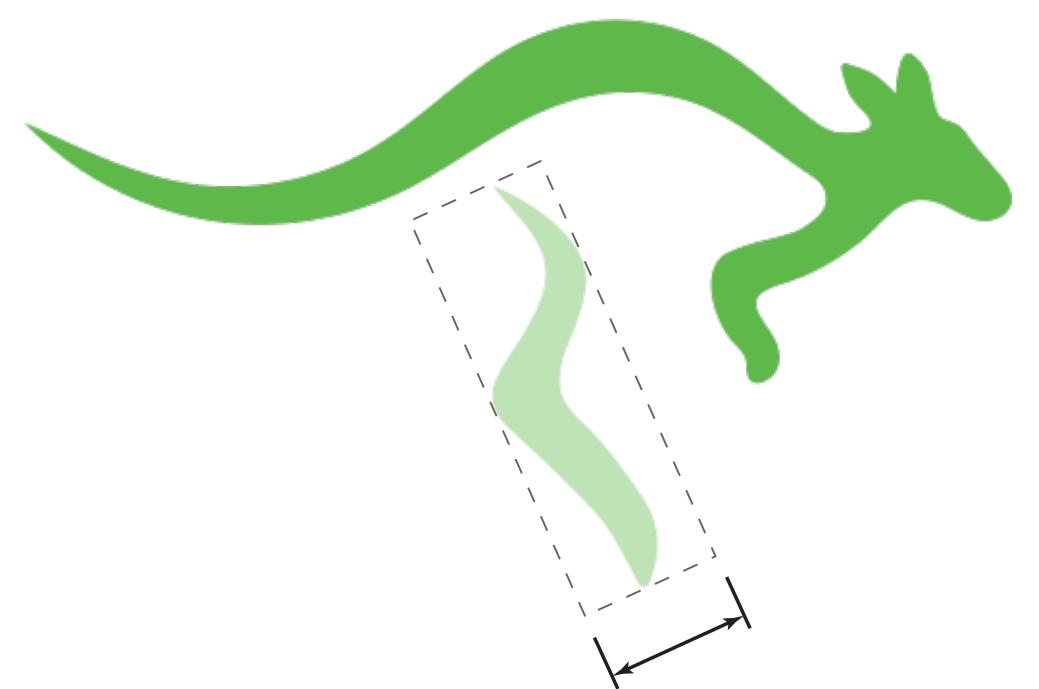

A brand icon is a symbol that embodies the identity and essence of a brand. The brand icon often complements the logo but can also stand alone in representing the brand. It is designed to be simple and easily recognizable at a glance, making it memorable for consumers. A good brand icon is versatile and can be used across various platforms and mediums, including digital and print. It's best to use this when other variations simply won't fit.

## Breakdown:

Our icon is an updated more modern and clean version of Joey the Kangaroo. This new icon represents how the brand is not just for children but appeals to the whole family.

## Clear Space:

This shows the minimum distance between the logo and other graphic elements. Always allow for a minimum clear space the width of the kangaroo leg as shown to the right.

# LOGO VARIATIONS

Making sure you use the logos correctly with the right brand colors is crucial.

Follow these next rules to ensure you're following the correct color combinations.

Any misuse may result in poor readability, too much contrast and inconsistency.

Example: In rare cases the icon will be shown behind the full logo. In these instances the icon will be shown a shade slightly darker than Launch Green.

## ACCEPTED COLOR VARIATIONS

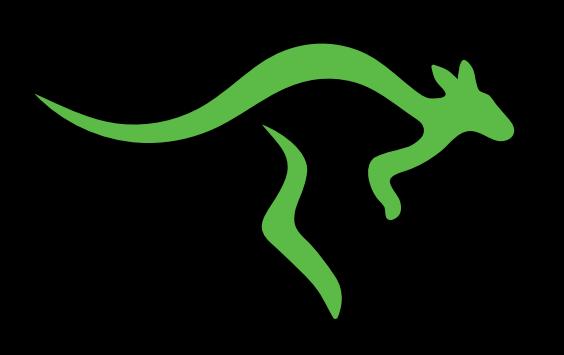

### White Background:

When you use a white background use Black, Green, and Yellow.

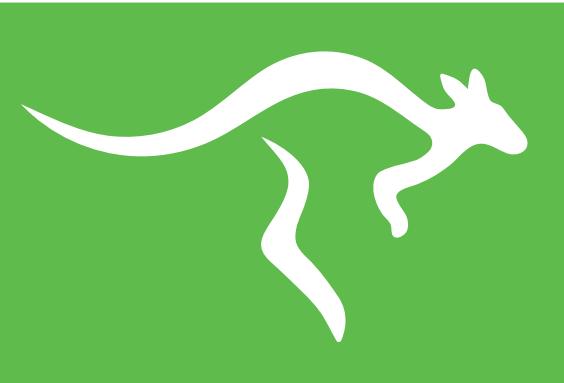

### Black Background:

When you use a black background use White, Green, and Launch Yellow.

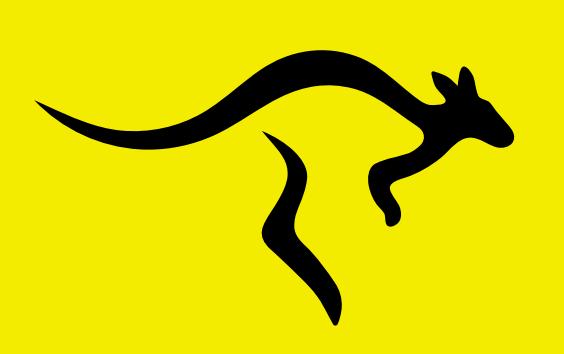

### Green Background:

When you use a green background use Black, White, and Launch Yellow.

### Yellow Background:

### Single Color

Depending on use, especially within merchandise, a single color logo works the best and is the most cost effective. Our Launch Logo and Icon are approved in 4 colors: White, Black, Launch Green and Launch Yellow. See incorrect usage for other use restrictions.

# LOGO & ICON ALTERATIONS

There are some instances where a drop shadow can help the logo 'pop' off an image or design. Use these with your best judgement and always refer to the design guide for overall aesthetics of the brand.

• **LAUNCH**  
**FAMILY ENTERTAINMENT**

**THE LOGO SHOULD NOT BE ALTERED IN ANY WAY THE EXAMPLES ON THIS PAGE PRESENT INCORRECT USAGE AND ALTERATIONS. DO NOT USE ANY VARIANCE OF THESE LOGOS.**

# FONTS

Using a set of consistent fonts for our business is going to be crucial because it sets the tone. Our fonts have been chosen to pair perfectly with each other as well as our brand identity. By using consistent typography across the brand will make us recognisable and memorable.

## FUTURA FONT FAMILY

Futura's design is based on geometric shapes, especially circles, which gives it a clean, modern, and timeless look. The clear and straightforward design of Futura ensures high legibility, making it a great choice for both small and large text. The Futura family includes multiple weights and styles, from light to bold and from condensed to extended. This variety allows for flexibility in design and helps maintain visual interest.

# SOCIAL MEDIA

## RULES

- Use your font pairings within your posts. Do not use random fonts as this will create an inconsistency.
- Do not use random colors. Stick to your brand colors.
- Keeping things visually consistent is important, make sure your Instagram highlights, stories & posts use your branding (colors & fonts).

Seeing your Instagram feed with the proposed branding can really help visualise the possibilities of what you can do with your brand. This also allows you to visually see how the branding elements like color palettes, fonts, photography etc. should be used alongside one another.

# OUR BRAND IN ACTION

Here are some examples of how our branding should be used in the future. Seeing our brand in action allows you to see how the fonts, logo, placement & color palette are used and the rules they follow.

The overall feeling we want to portray at Launch is to have images and marketing showcase a dynamic and vibrant destination with an engaging experience for families of all ages.

## IN STORE SIGNAGE & COLLATERAL

Digital Signage is more than just a display item at Launch Locations; it serves as our purchasing guide. Imagine ordering a salad from a menu that doesn't list it! Similarly, when we promote great deals to our social media followers, we must ensure that our message reaches them accurately. A dedicated screen showcasing this month's promotions not only guides guests to the best deals but also boosts our per capita spend by encouraging them to opt for higher-value items.

All parks must use the approved menu graphics only. All digital signage, including Krave and Bar Hops, is produced through corporate. No other digital signage may be on the televisions unless approved through corporate.

The use of strong photography/video can increase the following:

**Audience Engagement:** High-quality, visually appealing photos/video grab the attention of social media users, increasing engagement through likes, comments, and shares.

**Reach and Visibility:** Social media algorithms often favor visual content, meaning well-executed photos/video are more likely to be seen by a wider audience, increasing the business's reach.

**Conversion Rates:** Compelling photos/video can drive higher conversion rates by visually persuading potential customers to take action, whether it's making a purchase, visiting a website, or attending an event.

**Provides Shareable Content:** Eye-catching photos/video are more likely to be shared by users, extending the business's reach organically and potentially attracting new customers.

# JOEY

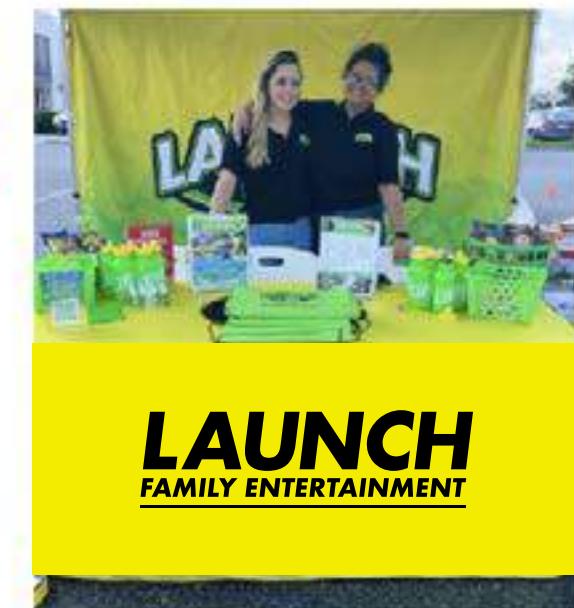

Joey the Mascot is one of the greatest promotional tools that we can utilize as a Launch. Kids and parents alike are drawn to Joey with his lovable character and connection to Launch. As a result, you should be constantly seeking out opportunities to get Joey in the community.

A mascot serves to provide our business with a distinct and easily recognizable personality, boosting visibility, memorability, and customer loyalty. Should they win over the public's affection, mascots can become iconic elements of our company's legacy. A beloved mascot has the power to cultivate brand loyalty among customers, as positive associations with the mascot often translate into continued patronage and word-of-mouth recommendations.

## STREET TEAM EVENTS

Joey should be seen around the community at least once per week. Sales ambassadors should seek out free events or barter/trade for a spot at the event. Events include 5 k's, county fairs, school events, zoo's, and exciting events around the community where families gather. Joey should be handing out passes while at these events to help with acquisition marketing!
